Creative Technologist

Ambitious and experimental artist and creative technologist looking to join an interdisciplinary design studio. Posseses a strong creative tech skillset and a passion for collaboration. Eager to learn and develop new and existing skills. Highly imaginative whilst able to execute projects in real terms.

Skills

- 3D Digital Design using Blender and Unreal
- Proficiency in Adobe suite
- Photography and documentation
- Coding and programming
- Audiovisual tech installment
- Project Management
- Collaboration

Experience

Night School Event Organiser
School of Art, 2023 - 2024
 As an organiser, I am involved in meeting with the comittee, planning a cross-faculty public event at the School of Art. I often perform live visuals, but have also curated and installed an exhibition of audiovisual artworks, and DJ'd for a catwalk show

App Developer and 3D generalist
Collaboration with Kyiv National Institute of Technology and Design 2023
 Working as a small team with a UI designer, two digital 3D modellers and myself developing the app and transferring 3D assets to the app development software. For this I used Unity with Vuforia plug-in to create the app for Android

Bar Supervisor
44 Bar and Bistro, August 2022 - August 2023
 Whilst working full time making cocktails and entertaining guests, I also took on the responsibility as in-house photographer

Audio Visual Technician placement
The City Is Full of Noise 2022, Herbert Art Gallery and Museum, Coventry
 Installing exhibitions of AV artwork to a professional standard amongst a team of experienced technicians whilst considering health & safety risks

Freelance Photographer & Videographer
2021 – present
 Undertaking freelance photography jobs for a range of clients in many sectors, including TAG Network Midlands, Rowcroft Hospice and 44 Bar and Bistro
